## CHECKLIST OF DOCUMENTS REQURIED WITH BUILDING PERMIT APPLICATION Dwelling, Dwelling Alteration or Extension

Application for Building Permit Form and Appointment letter / Consent to Act Form  Current Certificate of Title, Plan of Subdivision (including allotment plans)* printed within the last 60 days.  Storm Water Legal Point of Discharge from Council (New Dwelling Only)*  Property Information from Council (New Dwelling Only)*  Report & Consent documents from Council (where applicable)  Planning Permit copies from Council (where applicable)  Site Plan showing all relevant information including allotment dimensions, levels, easements, building setbacks, storm water and agricultural drainage system layouts and point of discharge, site cuts and retention systems, details of building on adjoining allotments etc. Minimum scale 1:500  Fully dimensioned Architectural Plans and Elevations showing floor levels, dimensions, heights, construction details, sectional elevations, light & ventilation analysis, sanitary facilities, etc.  Including analysis for determining Part 5 of Building Regulations 2018 matters such as setbacks, site coverage, building heights, siting, car parking, overlooking and overshadowing, termite barrier system specifications, BAL assessment report, etc.  Minimum scale 1:100  Engineering Designs, structural designs, drawings, details, computations, footing systems, retention systems, drainage system, tanking systems.  Energy Rating reports and stamped plans (All new dwellings require a minimum 6-Star report, including either a Solar HWS or 2000lt Rain water Tank for toilet flushing to form part of the design).  Geotechnical Soil Report  Building regulation 126, Certificate of Compliance (from all design engineers)  Domestic Builders Insurance Certificate where the cost exceeds \$16,000 (not applicable to owner builders)	Documents required for building approval and terms of appointment	Supplied	Not Supplied	Not Applicable
Current Certificate of Title, Plan of Subdivision (including allotment plans)* printed within the last 60 days.  Storm Water Legal Point of Discharge from Council (New Dwelling Only)*  Property Information from Council (New Dwelling Only)*  Report & Consent documents from Council (where applicable)  Planning Permit copies from Council (where applicable)  Site Plan showing all relevant information including allotment dimensions, levels, easements, building setbacks, storm water and agricultural drainage system layouts and point of discharge, site cuts and retention systems, details of building on adjoining allotments etc. Minimum scale 1:500  Fully dimensioned Architectural Plans and Elevations showing floor levels, dimensions, heights, construction details, sectional elevations, light & ventilation analysis, sanitary facilities, etc. Including analysis for determining Part 5 of Building Regulations 2018 matters such as setbacks, site coverage, building heights, siting, car parking, overlooking and overshadowing, termite barrier system specifications, BAL assessment report, etc. Minimum scale 1:100  Engineering Designs, structural designs, drawings, details, computations, footing systems, retention systems, drainage system, tanking systems.  Energy Rating reports and stamped plans (All new dwellings require a minimum 6-Star report, including either a Solar HWS or 2000lt Rain water Tank for toilet flushing to form part of the design).
